EARLY WARNING SIGNS

As part of Ellie Harrison's residency at Two Degrees festival, four of these special signs have been placed out on Commercial Street for the week 12 - 18 June 2011.

Utilising the brazen marketing techniques of capitalism, the signs have been desperately trying to grab the attention of passers-by; to force climate change back onto the agenda.

The harder the wind blows, the faster they go!

ADOPT A SIGN!

Ellie would like the signs to continue to promote their cause long after the end of the festival.

She is putting them up for adoption to organisations or individuals who can commit to displaying them in an outdoor public location for at least a year.

To apply please email:

1. your full name, address and organisation (if applicable)
2. a sentence explaining why you would like the sign
3. a photo of the proposed location for the sign
